About this form

This form is completed by the seller to supply the detailed information and documents which may be relied upon for the conveyancing process.

Definitions

- 'Seller' means all sellers together where the property is owned by more than one person.
- 'Buyer' means all buyers together where the property is being bought by more than one person.
- 'Property' includes all buildings and land within its boundaries.

Instructions to the seller

- The answers should be prepared by the person or persons who are named as owner on the deeds or Land Registry title or by the owner's legal representative(s) if selling under a power of attorney or grant of probate or representation. If there is more than one seller, you should prepare the answers together or, if only one seller prepares the form, the other(s) should check the answers given and all sellers should sign the form.
- If you do not know the answer to any question, you must say so. If you are unsure of the meaning of any questions or answers, please ask your solicitor. Completing this form is not mandatory, but omissions or delay in providing some information may delay the sale.
- If you later become aware of any information which would alter any replies you have given, you must inform your solicitor immediately. This is as important as giving the right answers in the first place. Do not change any arrangements concerning the property with anyone (such as a tenant or neighbour) without first consulting your solicitor.
- It is very important that your answers are accurate. If you give incorrect or incomplete information to the buyer (on this form or otherwise in writing or in conversation, whether through your estate agent or solicitor or directly to the buyer), the buyer may make a claim for compensation from you or refuse to complete the purchase.
- You should answer the questions based upon information known to you (or, in the case of legal representatives, you or the owner). You are not expected to have expert knowledge of legal or technical matters, or matters that occurred prior to your ownership of the property.
- Please give your solicitor any letters, agreements or other papers which help answer the questions. If you are aware of any which you are not supplying with the answers, tell your solicitor. If you do not have any documentation you may need to obtain copies at your own expense. Also pass to your solicitor any notices you have received concerning the property and any which arrive at any time before completion of the sale.

Instructions to the buyer

- If the seller gives you, separately from this form, any information concerning the property (in writing or in conversation, whether through an estate agent or solicitor or directly to you) on which you wish to rely when buying the property, you should tell your solicitor.
- You are entitled to rely on the replies given to enquiries but in relation to the physical condition of the property, the replies should not be treated as a substitute for undertaking your own survey or making your own independent enquiries, which you are recommended to do.
- The seller is only obliged to give answers based on their own information. They may not have knowledge of legal or technical matters. You should not expect the seller to have knowledge of, or give information about, matters prior to their ownership of the property.

 - II) An entry; or
- c) Consultation with the owner or occupier of the property conducted under Section 78G (3) of the Environmental Protection Act 1990

Informative

A negative reply does not imply that the property is free from contamination or from risk to it, and the reply may not disclose steps taken by another council in whose area adjacent or adjoining land is situated.

The Environment Act 1995 introduced a contaminated land regime forming part IIA of the Environmental Protection Act 1990 which became effective in April 2000. This change saw owner/occupiers become potentially liable for clean up costs as a Class 'B' "Appropriate Person."

Local Authorities are now responsible for preparation of reports on contamination in their respective areas and their subsequent local strategy. Local Authorities will intermittently inspect their areas in respect of contamination and take action against those seriously contaminated areas. Registers of remediation notices and contaminated land identified under Section 78R must also be kept. These registers do not form lists of contaminated sites; rather sites where Remediation Notices have been served. It is intended that information will also be included with regard to the condition of the land in question.

As part of the OneSearch Local Search we will inspect the remediation register where available.

Radon Gas

3.14. Do records indicate that the property is in a “Radon Affected Area” as identified by Public Health England or Public Health Wales?

No

3.14

No. The property is in an area where 0-1% of homes are estimated to be at or above the Action Level.

Informative

“Radon Affected Area” means a part of the country with a 1% probability or more of present or future homes being above the Action Level. Such areas are designated by Public Health England which also advises Government on the numerical value of the “Radon Action Level” (the recommended maximum radon concentration for present homes expressed as an annual average concentration in the home. Radon concentrations above the Action Level should be reduced below it and become as low as reasonably practicable).

The areas are identified from radiological evidence and are periodically reviewed by Public Health England. Existing homes in Affected Areas should have radon measurements. The present owner should say whether the radon concentration has been measured in the property; whether the result was at or above the Action Level and if so whether remedial measures were installed and whether the radon concentration was re-tested to assess the effectiveness of the remedy.

Radon preventative measures are required for new buildings in higher risk areas. For new properties the builder and/or the owners of properties built after 1988 should say whether protective measures were incorporated in the construction of the property.

Further information on radon, including an indicative version of the Radon Affected Areas map, the associated health risks and common questions and answers is available from Public Health England Radon Survey Centre of Radiation website (<http://ukradon.org/>). Alternatively information can be requested from Public Health England on 01235 822622 or by writing to Radon Survey, Centre for Radiation, Chemical and Environmental Hazards, Chilton, Didcot, Oxon, OX11 0RQ.

Fact Sheet for Homebuyers

Why do I need this search?

Your conveyancer has requested this search to make sure there are no nasty surprises lurking within your property. It is usually a lender requirement that you obtain a local search before they will agree to release the finance you need to complete your property transaction. But what does it all mean?

08 - Civil Aviation Charges	
Description Of Charge (including reference to appropriate statutory provision)	Originating Authority
Reference ABCXX. Aerodrome safeguard zones. Within the boundary of the Aerodrome Safeguarding Area there may be restrictions on all buildings, structures, erections and works exceeding 90 metres in height (295.3 feet) - DfT circular 2003.	North Somerset Council

Local Land Charges

The Land Charges Register will highlight any restrictions on use, or financial obligations placed on the property. These are generally binding on successive owners, so it's very important that your conveyancer explains this part thoroughly to you.

Planning Decisions

Have previous owners been rejected for that extension you had your eye on? Has permission been granted for those double glazed windows on your property that is within a Conservation Area? You can find out in this section of the report.

1.1. Which of the following relating to the property have been granted, issued or refused or (where applicable) are the subject of pending applications:-		
Section 1.1 (a)	Planning Permissions	None
Section 1.1 (b)	Listed Building Consents	None

Building Regulations

Have any works that have been carried out on property been done with appropriate consent? This section will reveal any applications made to Building Control for changes to the property. This is important as any works without appropriate consent may result in the council taking action and as the new homeowner you would be liable for remediation work.

Planning Designations and Proposals

Local Plans are vital for setting out what types of development can be permitted within a local development framework. This includes housing, business, and essential infrastructure.

1.2. What designations of land use for the property or the area, and what specific proposals for the property, are contained in any existing or proposed development plan?

About this form

The aim of this form is to make clear to the buyer which items are included in the sale. It must be completed accurately by the seller as the form may become part of the contract between the buyer and seller.

It is important that sellers and buyers check the information in this form carefully.

Definitions

- 'Seller' means all sellers together where the property is owned by more than one person.
- 'Buyer' means all buyers together where the property is being bought by more than one person.

The Law Society

Instructions to the seller and the buyer

In each row, the seller should tick the appropriate box to show whether:

- the item is included in the sale ('Included');
- the item is excluded from the sale ('Excluded');
- there is no such item at the property ('None').

Where an item is excluded from the sale the seller may offer it for sale by inserting a price in the appropriate box. The buyer can then decide whether to accept the seller's offer.

A seller who inserts a price in this form is responsible for negotiating the sale of that item directly with the buyer or through their estate agent. If the seller or buyer instructs their solicitor to negotiate the sale of such an item, there may be an additional charge.

Sellers and buyers should inform their solicitors of any arrangements made about items offered for sale.

If the seller removes any fixtures, fittings or contents, the seller should be reasonably careful to ensure that any damage caused is minimised.

Unless stated otherwise, the seller will be responsible for ensuring that all rubbish is removed from the property (including from the loft, garden, outbuildings, garages and sheds), and that the property is left in a reasonably clean and tidy condition.

2.4 Does the public sewer map indicate any public sewer, disposal main or lateral drain within the boundaries of the property?

The map indicates there are no public sewers, disposal mains or lateral drains within the boundaries of the property.

Notes

- (1) It has not always been a requirement for public sewers, disposal mains or lateral drains to be recorded on the public sewer map. It is therefore possible for unidentified sewers, disposal mains or lateral drains to exist within the boundaries of the property. A full site inspection is recommended prior to any work commencing.
- (2) Please note that from 1st October 2011 the majority of private sewers and lateral drains connected to the public network as of 1st July 2011 transferred into public ownership and it is therefore possible there may be additional public assets within or close to the boundary which may not be shown on the public sewer plan. The presence of public assets running within the boundary of the property may restrict further development. If there are any plans to develop the property further enquiries should be made to the undertaker.
- (3) The undertaker has a legal right of access to carry out work on its assets, subject to notice. This may result in employees of the undertaker or its contractors needing to enter the property to carry out work.

Lasting Power of Attorney Property and Affairs

For official use only
Date of registration

7008 8128-0030

10/01/2019

This is a Lasting Power of Attorney (LPA). It allows you (the donor) to choose someone (the attorney) to make decisions on your behalf. Your attorney(s) can only use the completed LPA after it has been registered with the Office of the Public Guardian (OPG).

Getting started

Before you complete this LPA you **must** read the prescribed information on the next three pages so that you understand the purpose and legal consequences of making an LPA. You should refer to the separate notes on how to complete this LPA when you are directed to because they will help you to complete it.

Things you will need to do to complete this LPA

- decide who to appoint as your attorney(s) in the LPA
- decide if you want to appoint a replacement attorney in case your attorney(s) cannot act for you
- decide whether you want anyone to be notified when an application is made to register your LPA and, if you do, who you want to be notified
- choose at least one independent person to provide a certificate at Part B of the LPA
- fill in Part A of the LPA. Your certificate provider(s) will need to complete Part B. Your attorney(s) will need to complete Part C
- have a witness to your signature at the end of Part A of the LPA

What to do after completing this LPA

An LPA can only be used after it has been registered with the OPG, so you will need to think about when you want it to be registered. There is a fee to register an LPA. Further information about how to register an LPA and what happens following registration is available from the OPG.

Information for you, your attorney(s) and your certificate provider(s) is available from the OPG. If you have any questions about how to complete this LPA please contact the OPG.

- c) Consultation with the owner or occupier of the property conducted under Section 78G (3) of the Environmental Protection Act 1990

Informative

A negative reply does not imply that the property is free from contamination or from risk to it, and the reply may not disclose steps taken by another council in whose area adjacent or adjoining land is situated.

The Environment Act 1995 introduced a contaminated land regime forming part IIA of the Environmental Protection Act 1990 which became effective in April 2000. This change saw owner/occupiers become potentially liable for clean up costs as a Class 'B' "Appropriate Person."

Local Authorities are now responsible for preparation of reports on contamination in their respective areas and their subsequent local strategy. Local Authorities will intermittently inspect their areas in respect of contamination and take action against those seriously contaminated areas. Registers of remediation notices and contaminated land identified under Section 78R must also be kept. These registers do not form lists of contaminated sites; rather sites where Remediation Notices have been served. It is intended that information will also be included with regard to the condition of the land in question.

As part of the OneSearch Local Search we will inspect the remediation register where available.

Radon Gas

3.14. Do records indicate that the property is in a “Radon Affected Area” as identified by Public Health England or Public Health Wales?

No

3.14

No. The property is in an area where 0-1% of homes are estimated to be at or above the Action Level.

Informative

“Radon Affected Area” means a part of the country with a 1% probability or more of present or future homes being above the Action Level. Such areas are designated by Public Health England which also advises Government on the numerical value of the “Radon Action Level” (the recommended maximum radon concentration for present homes expressed as an annual average concentration in the home. Radon concentrations above the Action Level should be reduced below it and become as low as reasonably practicable).

The areas are identified from radiological evidence and are periodically reviewed by Public Health England. Existing homes in Affected Areas should have radon measurements. The present owner should say whether the radon concentration has been measured in the property; whether the result was at or above the Action Level and if so whether remedial measures were installed and whether the radon concentration was re-tested to assess the effectiveness of the remedy.

Radon preventative measures are required for new buildings in higher risk areas. For new properties the builder and/or the owners of properties built after 1988 should say whether protective measures were incorporated in the construction of the property.

Further information on radon, including an indicative version of the Radon Affected Areas map, the associated health risks and common questions and answers is available from Public Health England Radon Survey Centre of Radiation website (<http://ukradon.org/>). Alternatively information can be requested from Public Health England on 01235 822622 or by writing to Radon Survey, Centre for Radiation, Chemical and Environmental Hazards, Chilton, Didcot, Oxon, OX11 0RQ.

Fact Sheet for Homebuyers

Why do I need this search?

Your conveyancer has requested this search to make sure there are no nasty surprises lurking within your property. It is usually a lender requirement that you obtain a local search before they will agree to release the finance you need to complete your property transaction. But what does it all mean?

Local Land Charges

The Land Charges Register will highlight any restrictions on use, or financial obligations placed on the property. These are generally binding on successive owners, so it's very important that your conveyancer explains this part thoroughly to you.

Have any works that have been carried out on property been done with appropriate consent? This section will reveal any applications made to Building Control for changes to the property. This is important as any works without appropriate consent may result in the council taking action and as the new homeowner you would be liable for remediation work.
